\*1 "new parolees" means parolees with life sentences, excluding persons who were allowed to be paroled again after revocation.  
 \*2 The average length of stay in prison of new life-sentenced parolees.

\*7 According to table 63 of Annual Report of Statistics on Correction (Kyosei) (1967), "new sentence" consists of 93 men and 3 women. However, the total number of inmates figured in the table is 95, which consist of 92 men and 3 women. Therefore, CrimeInfo considers the latter, 95, to be the number of "new sentences".

Hyphens ("-") mean that no statistical data exists.
